HEALTH AND SAFETY AWARENESS COURSE

HEALTH AND SAFETY AWARENESS

This course is designed to provide a basic overview of the principles of health and safety to all employees. It will cover the following key areas:

- The reasons for working safely
- The responsibilities placed on employers and employees
- Defining hazard and risk
- The main causes of harm to workers (fire, manual handling, hazardous substances)
- The importance of following systems, procedures and rules
- The need to report accidents and incidents in the workplace
